Pri Tzaddik Parshas Noach Ois Vav

Dedication

This *shiur* is *le'ilui nishmat* my mother Yenta Rivka bat Rav Yaakov Halevi. It is, it'll be 36 years this Sunday evening. May her *neshama* have an *aliyah*. *Amen*.

The Zohar's Prophesy and the Sixth Millennium

All right, let's start. Sefer HaZohar HaKadosh אות ו', קנ"ג, do you see it there on the bottom left? Yes? Okay, fine. Sefer HaZohar HaKadosh אמרו: ובשית מאה שנין לשיתא יתפתחון תרעי דחכמתא לעילא ומבועי דחכמתא לתתא. So let's see the Hebrew.

Says: ובשש מאות שנה לאלף הששי יפתחו שערי חכמה. The 600th year to the 6,000th year millennium, there is going to be a gate of wisdom that's going to open up למעלה from above, ומעינות של חכמה למטה, and there's going to be a wellspring of of of of of wisdom from below. And so this is a very famous one that the *Chassidim* talk about left and right, that the sixth millennium is when the start of the chassidic movement started, and there's a certain פנימיות התורה that happened during that time, it was during the Industrial Revolution, that was brought into the world. And in this week's *parsha*, through the Mabul and Noach being what it was, the 600 years, that's actually a hint actually to to this this gates of wisdom opening up.

So the question is, what does the Mabul and everything have to do with that? How does how does that fit in into play as a hint of total destruction, let alone of of the Mabul? So he says: וסימנך, וסימן הדבר בשנת שש מאות שנה לחיי נח, the hint to the year, 600 years that Noach lived, וגומר, נבקעו כל מעינות תהום רבה, that they it's a breach to all the wellsprings of the the great deep, צריך להבין את הרמז והסימן הזה, איך זה שהוא מורה על שנת שש מאות לאלף הששי. How does that, because Noach lived 600 years, that equals to the 600th, whatever, the millennium to the creation of the world?

The Root of Exile: Blemish of the Brit

וביאור העניין, דשורש סיבת כל הגליות הוא על עוון פגם הברית. You know the only reason why we have *galut*, we have exile, is because of the blemish of the *brit* itself?

כמו שאמרו Sefer HaZohar HaKadosh, HaZohar HaKadosh, so in the *parsha* of כי תבוא, דתוכחה, דתוכחה, your פרשה Ki Tavo, Mishneh Torah, Sefer Devarim, whatever, על גלות האחרון. There were 98 curses that was, and those 98 curses the Zohar says that's actually referring to the last *galut*.

And then Ari z"l says, because of Ari z"l: ולכן נאמרו שם צ"ח קללות, משום שמספר צ"ח רומז על פגם זה דפגם הברית. The 90 The number 98 itself is a hint to the פגם הברית, עיין שם. Footnotes in the bottom, take a look afterwards.

ואיתא בספר הזוהר הקדוש דלא אית ליה תשובה.

Says שפגם הברית הוא עוון שאין לו תשובה. That type of if you do you mess with with with the the *brit*, right, there's no *teshuvah*.

והחוטא בפגם זה לא חמי אפי שכינתא. Says further in the Zohar: עיין שם, אינו רואה את פני השכינה.

That is how bad it is. He says quickly that the the Zohar says that the destruction they have is that you're destroying your children, and because of that, you have no right to to see to see the *Shechinah*, and because of that, there's there's no cure for that. Okay, very, very harsh.

ובמקום אחר איתא, והני מילי כד לא עבד תיופתא שלימתא, תיופתא דהיא אתחזיא לאחפאה כל עובדוי.

So he says in the Hebrew: וזה דווקא כשלא עשה תשובה שלמה, because you're not doing a complete תשובה, תשובה שהיא ראויה לכסות מעשיו, that *teshuvah* you can cover up the the deeds, אשר תשובה מעולה that that *teshuvah* will will will be a benefit, ומכפרת אף על עוון זה, and it will be an atonement for for this type of sin. So what does that mean?

Pri Tzaddik Parshas Noach Ois Vav

The Primordial Sin and Rectification

והמקובל, והכוונה במה שאמרו שצריך לעשות תשובה הראויה לכסות מעשיו, you have to do that *teshuvah* that is going to be able to cover all the actions, היינו שאין שב לחטא, there's no *teshuvah* of חטא, עד שיביא מי שיוכל לתקן את כל שורש הקלקול הנעשה מנחש הקדמוני. You need to rectify, everything comes back to the primordial snake, the original snake, the damage that he caused, שהוחל פגם הזה בפגם הברית, that actually was the was the blemish of the *brit*. So what does that mean?

מה שמשמע שהנחש בא על חוה, that the Nachash wanted to come on onto חוה והטיל זוהמא בחוה, and then he injected this venom into Chavah.

וזה נדבקה הזוהמא גם על אדם הראשון, and because of that there was attachment of this venom also on Adam HaRishon.

ועל כן נעשה מושך בערלתו, and that's why the skin got stretched out where now it's not circumcised anymore.

שהוא מאוס בפגם הברית, that happened because the *brit* already had a blemish.

והיינו שהרי בוודאי אדם הראשון נברא כשהוא מהול, originally when he was created he was created circumcised.

And he was created whole.

ועל ידי קלקול חטא עץ הדעת נעשה אדם הראשון מושך בערלתו במאוס פגם הברית. As a result, so we always talk about how Adam and Chavah they were naked, they had a כותנות אור with an א, but the other thing which also happened where they went from כותנות אור to א from with a skin with an ע is that before Adam was created perfectly, he didn't have to have a a *brit* at all, and because of the of the *chet* of of the Etz HaDa'at, his skin also got stretched out where he would need a *brit milah*, and then all the other children afterwards as a result because of of that. It changed the the the the biology a little because of that.

Did you know? Okay. But don't they say Moshe Rabbeinu was But they say certain people that they were born like they had they were born with a *brit*, but they it's still you get to do the you still have to do the *mitzvah* of *brit milah* regardless. There were certain people that were created like that. I I do recall Moshe Rabbeinu, I recall a few other people, too.

Do you remember anyone offhand that that falls into that category? But that that was born with What? Yeah, I can't think offhand, but but for sure there are there are people, for sure. All right, so he says I think Chanoch was was one of them, actually, also. I believe Chanoch, I'm pretty sure, was one of them. Yes! Don't say that name in Shul! You saved in tests.

Okay, I learned from the Ran. Okay, וכיון ששחטו, so that means he was just here for a short time and his mixture is still right floating in here. Okay, וכיון שחטאו היה ביום בריאתו, ביום שישי, the *chet* itself was on the sixth day of creation, the day he was created, ששת ימי בראשית, ימי בראשית, ממילא הוא נחשב כמו שבתחילה נברא כך. For sure he was created he was thought not circumcised.

ועל כן, אם תולדותיו של אדם הראשון נולדו מתחילה ערלים, so therefore it comes out to be that all the offspring, again, they were born uncircumcised.

ועל ידי הזוהמא שהטיל הנחש בחוה, נדבקה באדם הראשון, גרם נגרם הקלקול והפגם במאה ושלושים שנה שאחר החטא, that caused the *kalkul* and the *pegam* of 130 years שבהם ראה קרי לאונסו, after the sin, and he saw, right? *Keri*. It was forced.

פגם הברית, מידת היסוד, and that was, again, the blemish of the *brit* and the *midah* of of of *yesod*, obviously referring to the *brit*.

That's the *midah* of of of Yosef also, very famously. That's the seventh of the of of the of the *sefirot*.

ומי שמתקן את כל שורש הקלקול שפגם הנחש, I think it's the sixth actually, and those who were able to rectify the *shoresh* of the *kalkul* of the original sin, צריך להיות חי לעולם. He then he would he would need to live forever.

משום שאדם הראשון נאמר לו, כי ביום אכלך ממנו מות תמות. Of course, on that day you ate, you're you're certainly going to die.

והגזירה הזו הוקמה, על אף שחי לאחר מכאן עוד תשע מאות ושלושים שנה, מכל מקום שמת באותו יום שחטא. Yes, he didn't die that day, but he died.

Death was pretty much like stamped, and that was it. So he says, weiter.

A Divine Day and the Seven Sefirot

והוא משום דביום אכלך, היינו יומו של הקדוש ברוך הוא הוא אלף שנה, very famous פסוק Tehillim. So we say that on the day he died, so we we also make a *derashah* that a day by *HaKadosh Baruch Hu* is a thousand years, כמו שנאמר: כי אלף שנים בעיניך כיום אתמול.

That a day, a thousand years in your eyes is like yesterday.

וביאור ענין, let's try to figure out what it really means. What a day by *HaKadosh Baruch Hu*, what does what does a day really mean? He says, היינו שבשת ימי בראשית הם מכוונים כנגד שבע המידות התחתונות. The seven days of the creation are referring to the seven lower ומזוקק שבעתיים, היינו שבע פעמים שבע.

And then it is now bounded to 70, that is seven times seven, כלומר שבע מידות שכוללות זו בזו, meaning each of the seven *midot*, they really they kind of like loop over one another. So that's why, for example, when you're counting Sefirat HaOmer, okay, you say ש יסוד שבשסוד...

ש... because each of the *midot* actually interplay, so you're actually when you're rectifying a *midah* of of of one of the *sefirot*, you're really not just rectifying that *sefirah*, you're also rectifying all the other aspects of the other *sefirot* that are connected at the same time.

So all the So if you think about it, you have the *midah*, let's say, being patient or angry or or or ADHD, I'd call it a *midah*. Okay. In reality, all those *midot* are not isolated, they all interact with each other. So when you're really it's actually a very important thing, though.

So Orchot Tzadikim famously pretty much took the idea of of finding the right balance of the *midot* from the Rambam הלכות דעות. But and he says there's like Most *midot*, almost every *middah*, I think except for, I think, *ka'as* and *anavah*, those are the the two ones that they have to be extreme with it, there's a balance. But I really think part of the balance is knowing how to interact those *middot* with the other *middot* also. And the key thing, too, is how how do we rectify those seven seven lower *middot*, too? All right.

Weiter. So he says weiter, והיינו ארבעים ותשע שערי בינה. So again, there's 49 gates of of of *Binah*.

ובשל עשר מיות כולן בעשר, מידה כוללת, ומידה כוללת עשר מידות.

So really it comes out to be a a a true *middah* because 10 *Sefirot* is going to be 100. Because if you do every permutation of that *Sefirah*, right? Times 10 times whatever it is, it's going to come out to be each *Sefirah* is going to be 100 type of permutations if you go through not just the seven *Sefirot*, but the other three, too, also at the same time. Does that make sense? Yeah. Okay.

So that's how, therefore, a day, 100, *Hakadosh Baruch Hu*, it's all connected to the the *Sefirot* that *Hakadosh Baruch Hu* has created. That's what it means by a day, a thousand-year, you know, so that's what's going on.

ומידה כוללת עשר מידות, הוא אחר מאה שנה, so that's after 100 years.

הוא מספר שלם.

100 years, the Maharal talks about, that's that is a perfect number, which is also even even in in in uh in the in the *goyishe velt*, right? Which we use, so we say, you got a perfect score, you got 100, okay, or when you you

got judged, a 10 is also a unit of 100, same kind of concept. Everyone is *maskim* to the idea of about 10 or 100 being a full unit, okay?

כמו שאמרו בזהר הקדוש, וזה בכל מידה מעשר ספירות זוהר הקדוש, and that is a *middah* from all the 10 *Sefirot*.

וכל מידה משוערת יחד משוערת לאלף יחד מאה כולם, it's like a 100 which encompasses everything.

גם הוא בעשר, יגיע אלף שנה, that's how you come out to be a thousand years.

וזה יומא דהקדוש ברוך הוא, that's what it means a day by *Hakadosh Baruch Hu*. How'd you get from 100 to a thousand? 10 * 100? Yes. I I I I didn't do all the math, but Mr. Brandis, I'm sure, can do the math. In all those books there in the back, I'm sure.

Or and Aryeh Kaplan, in his books he talks about how they all they they all interact. But but that's what it means. A real day means every every part of the day, all the ups and downs you have is is perfected by all these *middot*. That's what a real day is, not the day that we encompasses 24 hours, but it means what you do with those *middot* in the day, that's what makes a real day.

And in a day meaning a thousand years, also, okay? He says, אדם הראשון היה יכול לחיות, he was able to live, אך לאחר שחטא תשע מאות שנה, that means Adam Harishon, if you're just doing the numbers, like, you know, empirically, he was pretty close. He lived for 900 900 years, I mean, that's almost a thousand years, which means he's almost a full, real day as far as *middot*. If you're living that long, it means that a lot of the *middot* that Adam Harishon have are are perfect in in some regard.

ואף במאה עשירית, even the the the the 100 the 100th of the 10, גם כן יכול לחיות מקצת מן המאה עשירית, he was able to live all the way even that last 100 years to like a partial of that of that right.

Meaning, he was already going into getting into the last one, but so he was like 30% of the way there, I guess, or whatever, 93%. What he means to say. Oh, 93% if you look at it from 0 to, you know, whatever. That's what I'm saying.

Yeah. But כדי לחיות אלף שנה בשלימות, but to live that 100 last year in פגם הנחש כל את לתקן צריך אדם הראשון, שלימות. He needed to rectify the פגם הנחש. *Mikol makom*, so it has to be it has to be perfect.

ואז אם היה מתקן, היה חי לעולם. If he was able to *metaken* the *chet*, he would live forever. But we know what happened, obviously. We're here.

וכן מי שהיה מתקן את כל, and anyone who is able to *metaken* all the קלקול, את כל חטא אדם הראשון, ועשה תשובה בשלימות. If you do *teshuvah bishleimut*, again, we're still here, שזה מובא ממש, אומר בזוהר: "תיובתא דאי אשתכח למהפך כל עובדוי", תשובה, זו תשובה שלכסות את כל מעשיו, that is able to cover up all the deeds, אדם זה יחיה לעולם. Then he'll live forever.

וכיוון שלא היה בעולם אדם מתקן, and since there was no one that was able to rectify that, ככל, את כל פגם, מכל מקום, בשלימות, therefore, every פגם has to be in שלימות, שיזכה לכך שיחיה לעולם.

That's how we're going to live forever.

וכן כתב הזוהר הקדוש, שבעקרא דלא אית ליה תשובה, שבפגם הברית אין לו תשובה. So he's saying in reality because there's that stench, that venom of the פגם of the נחש that's there, it is impossible, he's saying, to do *teshuvah* because of of of of any פגם הברית because of the original פגם הברית that the נחש caused in the first place. He's saying he cannot do it.

The Zohar is saying straight out. Okay, *shiur* done. Okay, *vayter*.

Historical Cycles and the Generation of the Flood

Pri Tzaddik Parshas Noach Ois Vav

והנה שבעת אלפים שנה שהם משך זמן קיום העולם מכוונת כנגד שבעת ימי בראשית, which we said earlier, שהם שבעה, is referring to the seven ספירות, the seven traits.

והיינו ששת אלפי שנים קיום העולם הזה מכוונת כנגד ששת ספירות התחתונות, is referring to the six lower ספירות.

והעולם יהיה ממש אחר כך אלף שנים, another 1,000 years, של עולם הבא שנקרא יום שכולו שבת, that's going to be, again, a full day of of of Shabbos. And what is Shabbos? Shabbos means everything is perfect, because it's a completed job, כמו שרמזנו.

וזה הטעם שלא נאמר "כי טוב" ביום השני.

On the second day of creation, טוב is not mentioned there, לבריאת עולם. Why?

משום שזה מרומז על אלף השני, is referring to the the second cycle of those 1,000 years, right?

שבו היה דור המבול ודור הפלגה, of the world existing, של קיום העולם. And you know what happened? Not a good 1,000 years. We had the מבול, and we had the דור הפלגה.

Right. But I can kind of back you had Avraham Avinu also, and he started Judaism, so whatever. But there was no Torah also until the next 2,000 afterwards. Okay.

So this is צדיק, שנאמר: "אמרו צדיק כי טוב", there's no טוב unless there's a וכיוון שאין טוב אלא צדיק, they say that they say צדיק cuz that is good, ודור המבול היה ההפך ממידת צדיק. The generation of the flood is the exact opposite of the מידה of צדיק, כיוון שפגמו בברית. They totally they blemished the *berit* to the nth degree.

ומי ששומר את הברית הוא בחינת צדיק.

But obviously, personifying that, that is what called being, שומר הברית is *bechinah* of *tzaddik*.

והם, אדרבה, היו בחינת הרע שההפך מן הטוב. They were the opposite from *tov*.

פגם זה, פגם הברית היה עיקר החטא אנשי דור המבול.

That was the principal sin of the generation of the flood.

ועל כן הפוגעים בברית נקראו בגמרא "בני מבול". They were called the children of of the flood, the ultimate flood.

מטעם זה לא נאמר ביום השני "כי טוב".

That's why כי טוב is not mentioned on the second day.

וכן לא נאמר "כי טוב", we don't mention טוב, מחמת חטא אנשי דור הפלגה. So we had a double-header. It wasn't just a דור המבול, you also had the the generation of dispersion, collocating fancy word, right, rabbi?

Dor HaFlaga and False Unity

כי לגבי דור הפלגה איתא, מצינו שאמרו: "לא התקינו עירובי חצרות..." that the gemara the the medrash says that עירובי חצרות was not enacted, "...אלא מפני דרכי שלום", only because of the ways of peace.

וכן כך מורה לשון עירוב. What does *eruv* mean?

דהיינו שעירוב מערב יחד את דעת בני אדם ועושה אותם כאדם אחד, mixing together, ש... משמע תערובות. An *eruv*, what does it do? It is able to mix together many different opinions or personalities and they can become one unit.

According to some people, it's good, the Pew study. All right.

ומסיים ברש...

עיין שם.

Pri Tzaddik Parshas Noach Ois Vav

ומסיים במדרש שם: אמר הקדוש ברוך הוא, אני עושה שלום בעולמי, "I'm going to create peace in my world." והרשעים האלו, אנשי דור הפלגה, עומדים לעשות מחלוקת בעולם. But the people of that דור, what ultimately was going to be the דור of of separation, they want to cause *machloket* in the world, כי כפי שנאמר בהם ויהי כל הארץ שפה אחת, they all had one unified language, וגומר.

ואף על פי כן, איתא שם במדרש רבה על פסוק ויהי כל הארץ שפה אחת, שדור הפלגה היו אוהבים זה את זה. Amazing, not that the Midrash Rabbah says not only did they have one one language, but they actually loved each other.

לפיכך נשתייר בהם פליטה, and therefore they they remained around.

לכן... it's an amazing concept. They wanted to cause *machloket* with Hakadosh Baruch Hu and the Midrash says which one is worse, you know, one's actually really starting direct with Hakadosh Baruch Hu versus the other one's, okay, destroying in פגם הברית, but one's like, "Come on, Hashem, we want to..." You would figure the דור הפלגה is worse, but because they loved each other, that actually, that's why they stayed around.

Besides the the the קשת, you know, the the that they had, but that's but but on some level, we would say the דור הפלגה is worse.

ומכל מקום, לא אבדו מן העולם כמו דור המבול. They were not lost from the world like like the דור המבול.

ומפורש שבדור הפלגה הייתה אחדות ולא מחלוקת.

וקשה לכאורה, אדרבה, פסוק זה מורה להיפך, שלא עשו מחלוקת אלא אלא שלום. That they did not cause *machloket*, but there was peace.

אף על פי כן, בסופה השם יתברך, שכינוס שיש אחדות להם, יגרום בסוף אלא פירוד ומחלוקת. This, oh, the *achdut* they had, they they got together, they had the first כינוס, not the, you know, whatever the the everyone got together at MetLife for Siyum HaShas, oh, the *achdut*.

This is not that. This is a temporary truce that was going to blow up a minute later where everyone was going to rebel against each other. They only had It's an amazing thing, by the way. You see this in politics, okay? You see this in politics all the time.

Politics, where you have different people with different views, but they're so disenchanted with the other one that, all of a sudden, there's there's a love fest. You know, we all love each other. But then, once they get the other person knocked out, then the true gloves come off and they really never liked each other all along. Which is pretty much the דור הפלגה.

Okay. No, no, no, no, no, no, no, no. I'll I'll I'll I'll I'll I'll Okay. I'll answer what you said.

I'll answer your words, what you you you said. You almost got it right. You were pretty close. And, by the way, Reb Miller's piece, we have to see how it develops.

I didn't finish the whole entire I didn't finish the whole entire piece anyways, but whatever, I'm not sure we're going to even finish it, but we'll we'll figure it out. Okay, famous thing which you said, okay, that there is two things happening at the same time. We're in a world of צמצום. Oh, those are your words! So this this right now are Hashem interacts on the world of no צמצום, we're we're in the world of where there is constriction, עשייה, and therefore because we don't have the full glory of Hashem, that's the way we interact, and therefore there are two concurrent things happening at the same time.

What? Which is what you said. You did. Didn't you say I know, so I'm using your words. All right.

Okay. Now, You're so excited. All right. Anyways, so he says, וכן כל תאוות הכינוס שלהם רק כדי לחלוק על המקום ברוך הוא.

The whole כינוס was just to cause *machloket*.

Pri Tzaddik Parshas Noach Ois Vav

וזה שאמר, כינוס לרשעים רע להם, רע לעולם. Anytime you have an ingathering of the רשעים, it's just to cause evil. There's there's I I mentioned this a while back, that at the same there's a concept called *zeh le'umat zeh*.

So, anything that we do, there's a a corresponding opposite happening at the same time. So for example, Rav Tzadok brings down a Midrash, that the exact same time that we came together at Har Sinai to get the Torah, right, and Moshe was the proxy, right? All the other nations of the world gathered around to Bilam, complaining, "What are we gonna do together?" And they all gathered for one purpose, but again it was just to cause רע. Same concept. Okay.

וכן באמת היה דור הפלגה אחר כך הרגו זה בזה. Right here, After דור הפלגה, what happened? They killed one another! That's when you all of a sudden had the kings and and all these different wars. So he says, וכיון שדור הפלגה התנגדו לשלום, they really were against שלום, ממילא הם דור הפלגה גם כן התנגדו למידת צדיק. That's why they're against the *middah* of *tzadik*.

מידת יסוד שנקרא שלום, because by not having פגם, by having you cause stability. That's what causes *shalom*.

כי ידוע בזרע קודש.

ועל זה כתיב, וירא אלקים את כל אשר עשה והנה טוב מאוד.

What? I understand what Rav Tzadok is saying, he's getting it from the Midrash, but it goes against the Chumash, it's not *peshat* in the Chumash. Why did they break down? Hashem didn't like what they were doing, Hashem caused them to He confounded the language. Do you know how many מדרשים there are that that that are not *pshat*? Do you know how many how many *midrashim* there are that are not פשוטו של מקרא? I understand that. What I'm saying is So why are you bothered by that if it's not if it's not פשוטו של מקרא? I'm bothered that he's he's going off from down from *pshat*.

I mean, I guess it's I mean, I'll I'll tell you I'll tell I'll tell you another thing he says that's that's That's how he packages it. I'll give you an example that he says that when when you went out to war, right? When you went out to war? In in in in Devarim, right? So they talked, right, that's that's the So he says the real war, he brings down one of the Chassidishe rebbes, I think it was the rebbe of of Pshischa, they call him the Yid Hakadosh. So he says, פשוט פשט is, not the war, you know, on your enemy, your real enemy is *yetzer hara*. That's the real war.

And he said, Rav Tzadok says, quotes it a million times, and he says that's *pshat*, that's פשוטו של מקרא. Your eyes would roll! My eyes don't roll, but it's That's not *pshat*. It's a fine *drash*, but it's not *pshat*.

פשוט פשט? But he says that that's פשוט פשט on on on the *pasuk* also.

I'm telling you what his words were. I'm telling you what his words were. It can't be *pshat*. First of all, there's no such thing as פשוט פשט.

There's *pshat*, there's *drash*, there's *remez*, there's *sod*. He says it's *pshat*! He said *pshat*! I'll show you the words! He can say *pshat* all he wants, it's not *pshat*. Says you. It can't be *pshat*.

It can't be *pshat*. I I I mean, *pshat*, okay, so I'm gonna I'm gonna I'm gonna be a How are you gonna read the you can't read the words that people should go home I forgot who was he's he's he's dead now, there's a movie called Star Wars. Who? There's a movie called Star Wars. Yeah.

And Obi-Wan Kenobi basically he said, "Well, you lied to me." He says, "Well, I'm telling the truth in a manner of speaking." So, this is *pshat* in a manner of speaking. Meaning, it is He's a Star Trek guy, I know, I know. I have *shtut* stuck in my head, I have to get past it. I know.

He's דורש-ing the *pshat*. All right. Anyways, this has bothered you before, I've heard you say this before also. This is one of your arguments when you go up to *shamayim* or כסא הכבוד, you'll have this conversation.

Good.

Pri Tzaddik Parshas Noach Ois Vav

וביום הששי כתיב וירא אלקים את כל אשר עשה והנה טוב מאד, ונדרש על מה שהוא היפך הטוב, שגם הוא נתהפך לטוב מאד. Even things, so he says, טוב מאד means the opposite of good, which means pretty much evil. That's called טוב מאד.

וטעם הדבר, משום שיום הששי ממנו ברית מכוון כנגד מדת יסוד כידוע, ולכן הוזמן אז לתקן את כל פגם וקלקול הנחש שהיה באכילת עץ הדעת, וכן גרם אז פגם במדת יסוד. And that's the cause the the the the *pgam* of the מדת יסוד.

וכל תלותו הרי על ידי אשה שהסתה בחוה, ולתקן שני פגמים אלו כי צדיק הוא. Why is he called *tzaddik*?

נוטר שומר הברית, because he preserves the *brit*.

ולכן נאמר צדיק אוכל לשובע נפשו. A *tzadik*, he does eat, it's to satiate his soul.

והיינו שכל אכילתו הוא בקדושה ולא תאות הגוף. Okay.

Okay, yes. So how am I doing? How do you satisfy your soul? No, what does this have to do with I still don't see where he's getting to the six and 7,000. Oh, we're getting there. Oh, okay, it's just in a roundabout way.

I know Rav Tzadok, he takes you on for a ride.

ולכן עבור זה נבראו ששת אלפי שנה כדי לתקן. Rav David, Rav David, I'll give you the the *mashal* and the *nimshal* over here. It's like working out.

If you're in routine, you're good, but if you haven't done it in six months, it's like All right, we'll finish, don't worry. Well, if you we'll figure we'll finish it up somehow or another.

The Six Millennia Process and Heavenly Assistance

ולכן עבור זה נבראו ששת אלפי שנה כדי לתקן את כל שש מדות תחתונות מעילא לתתא. He says these 6,000 years are going to rectify all these *middot* from above to below, מדת חסד עד מדת יסוד, מעילא לתתא.

Chesed being the highest one and *yesod* being the lowest of the besides the *middah* of of *malchut*, that's the last one.

ואחר כך לאחר שנתיישבו ונתתקנו בעצמן בשש מדות אלו, after you fix up these six ראשונות מבינה שלש זוכין שמשפיע מדות. So then there is a *mimela* that הקדוש ברוך הוא takes care of the rest, like the big three. Hashem, that that's Hashem's arena.

We have this the the the seven below here, and then there's a trigger that the top three, Hashem says I got this part. Which means we can only go 70% if you do the math, okay? So he says מדת כתר חכמה בינה, so those are the big three.

ואז נזכה לימות המשיח ולגאולה שלימה שנקראת יום שכולו שבת. And then you'll be *zocheh* to have the the perfect *shleimut*, which is called a day, everyday is Shabbos.

כמו שאמרו במקום אחר לענין הפרעת שלש פורעניות. So what happens is that you have sorry, *haftarot* of the three, שלש הפטרות בשלש שבתות שקודם תשעה באב שבהם שמענו נבואת פורעניות וחורבן. So those are three *puraniyot* as far as the the the structure, the prophecies of them.

ושבע דנחמתא, and afterwards you have שבע הפטרות בשבע שבתות שאחר תשעה באב שבהם נאמרו נבואת נחמה.

So those are seven הפטרות שעיקרם לתקן את שבע המדות. Now you're going to rectify the seven *middot* that you caused a *pegam* in. *Tachtonot*, but that's below.

כאשר סדר התיקון, מתתא לעילא.

So now you're going from the lowest part and now you're elevating to a higher part, מתתא לעילא, מדת מלכות עד מדת חסד.

Pri Tzaddik Parshas Noach Ois Vav

רק שם בענין הפטרות. As far as *haftarot* go, שלש הפטרות דפורענותא הם כנגד שש מאות שנות. So you have the first three of destruction, they're really the opposite of the three highest *sefirot*: כתר, חכמה, בינה מקודם לפני השבע דנחמה.

It's very interesting. You're actually going backwards to the highest *sefirah*, and then you're going back from below outwards. You're going out of order. You hear the logic? Okay.

You would figure if you're going to do *teshuvah*, you start from the lowest part and you keep going up. You fix the lowest seven and then you go the three. But the *haftarah* first starts with the as far as a process, the destruction, the *nevuah* which is really the top three and then you're starting again. That's kind of out of order.

Right? You hear the question? Yes. Okay. Okay. So what's going on exactly? So he says: מה שאין כן במשל ששת ימי מדות, which is a *seder* בסדר הפוך מן האמור, which is for the seven עולם שהם שבעת אלפים שהם מכוונים כנגד שבע מדות of the opposite, דהיינו מעילא לתתא, you actually are now you're going to get more confused, you're going from above to below, ממידות חסד עד מידת יסוד מלמעלה למטה.

לפי זה נמצא שאלף השישי שהעולם עומד בו מכוון כולו כנגד המידה השישית דשבע המידות התחתונות שהיא מידת יסוד. That's מידת יסוד.

אם כן בשנת שש מאות, they all have their different permutations, ולפי מה שנאמר לעיל שכל ספירה כלולה מעשר ספירות היינו כשעובר מאה השישית שהיא מכוון כנגד מידת יסוד שביסוד, the 600 year to 6000 year, לאלף השישי. That's referring to יסוד שביסוד, meaning it's really full-born as far as being שומר ברית.

ואז הוא זמן המסוגל לתקן בו את כל פגם דמידת יסוד. That is the time that's a *segulah* to fix up every *pegam* as far as the מידת יסוד.

וזה שאמר הזוהר שבשנה זו יפתחו תרעי דחכמתא לתתא. He says in this year יפתחו שערי חכמה למטה, there is going to be a gate of wisdom that opens.

וטעם הדבר הוא כמו שאמרו, and this is the key part: דמה שאמרו בזוהר דבפגם ברית לא אית ליה, you have no, לא אפשרות תשובה, you can't do *teshuvah*.

אבל מה שאמר שבבני עלי, מה שאמר בהם: ולכן נשבעתי לבית עלי אם יתכפר עון בית עלי בזבח ובמנחה, right? If you're going to try to be *mechaper* with the זבח and מנחה קרבן.

ודרשו: בזבח ומנחה בלבד אינו מתכפר. That's not going to work.

ובכל זאת מתכפר בתורה. You need Torah also.

וכעין זה גם בפגם מה שאמרו לגביו לא אית ליה שאין לו תשובה, you're not going to work, meaning he's trying to say you need a certain type of Torah to open up the vistas and the channels that's going to rectify the פגם הברית. And he's saying this millennia basically, where the gates are opening, is now going to give you that wisdom to break through where *teshuvah* and *metaken* the *pegam* is possible.

That's the hint they're saying here. Even at the worst of times there's a gate of wisdom that opens even as we say טוב מאוד, which is the מידת יסוד. You need something to break you through with that to open up those channels. And there's no coincidence that when you're learning Torah, especially when you're learning the פנימיות התורה, right? I that Ronnie always told me that he used to go to the *mikveh* before he learned any תורת הנסתר for sure the Zohar, I know also.

Because there's a certain type of attitude you had to have as far as פגם הברית, but it also opens up the new channels. That's the key thing he's saying here. So he says: כעין זה פגם שאמרו לגביו לא אית ליה תשובה, טעם זה הוא משום דשורש התשובה הוא בחינת בינה לליבא. The *shoresh* of *teshuvah* is the בחינה called the בינה of the לב.

שמשכנה בליבא, it dwells in our heart.

Pri Tzaddik Parshas Noach Ois Vav

וסוד, by the way, is very in the key thing that תורת הנסתר is something that even though it sounds very esoteric concepts, but it's actually right here in the לב if your לב opens it up for here. That's a very big עבודה that Rabbi' Tzadok is very into.

משום דאם החוטא היה מתקן את כל הפגם, if the sinner is מתקן the whole היה בהכרח חיי עולם היו בליביה, פגם, like what you mentioned above.

אבל בכל זאת בתורה שהיא מידת חכמה שלמעלה ממידת בינה. He says this whole Torah as far as מידת חכמה from above which is the מידת בינה. And by the way, the one מידה which actually opens up to *teshuvah* is through בינה, even from our lowest point, even though בינה is way up there, we open through our heart, through לב.

ודאי גם כן זה מתכפר, then the חטא will be atoned.

וזהו שנאמר על התורה, "לכל בשרו מרפא", the whole flesh is going to be cured.

מאידך שהתורה הוא רפואה ותיקון אף לפגם הזה, the Torah is going to be the רפואה, פגם הברית שנקרא בשר, which is called flesh, כמו שנאמר, "וזאת תהיה טומאתו בזובו רר בשרו את זובו או החתים בשרו מזובו טומאתו הוא" וגומר, כמו ששנינו לגבי תיקון יסוד בקדושה שנקרא בשר קודש, ובהיפך פגם הברית נקרא בשר חמורים. This is amazing. You're either one or the other: either בשר קודש or you're the flesh of of a of a donkey.

וזה "לכל בשרו מרפא", דהיינו התורה מרפא ותיקון אף לפגם הזה.

ועל כן, שיעברו שש מאות שנה לאלף השישי, and when you passed the 600 years of the 6,000 years, right, you're doing the דהיינו השנה כנגד מידת יסוד שביסוד, אז יתפתחו תרעי דחכמתא, then you're going to open up the gates of wisdom, יפתחו שערי חכמה, וממילא כל שכן שיכול לשוב בתשובה באמת. He's saying there is a a kind of like a ripe time that opens up, and this is the the channels are there for the taking. So, unlike before, you didn't have it, but now it it it's no matter how much before there was no *teshuvah*, now it's there because there's a type of Torah that exists now.

So, he says ירגיש סייעתא סיוע בעזר השם יתברך, here is the key thing, Rabbi Natan. There is a help that comes from Hashem yitbarach.

איך שנפתחו לו שערי חכמה עליונה של תורה שבכתב, שמכוונת כנגד חכמה, so you have the gates of the supernal wisdom, the written Torah, that's the מידה of בתחילת פרשת בראשית "אור", כמו שנאמר חמש פעמים "אור", ומאמר "יהי אור", חכמה, this is a famous, very famous one, כנגד חמישה חומשי תורה, each "אור" is one of the five books of Moses, he says that in בראשית somewhere, וכתיב "אור זרוע לצדיק", the light of the of the צדיק that's sown, דהיינו שהשם יתברך משפיע למי שמתגבר על יצרו, השם יצר הרע, שזה בחינת צדיק is going to influence for those or those that's going to overpower the צדיק, that's what it means צדיק.

השם יתברך משפיע מאור הראשון של חכמה דלעילא, then Hashem is going to illuminate the supernal wisdom from the original light and is חכמה עליונה.

מקוצו של יו"ד דלעילא, you're now being *mekabel* from the highest of places, from the tip of the יו"ד. The י-ק-ו-ק has the the way the *sefer* breaks it down is there's actually two parts of the יו"ד, the smallest letter. It's amazing when you think about it. So, the י-ק-ו-ק breaks down to ten *sefirot*.

In the יו"ד itself you have כתר and חכמה. The כתר is the tip of the יו"ד and the rest of the יו"ד is the חכמה. And הקדוש ברוך הוא is being משפיע from the highest of all influences from the כתר on the tip of the יו"ד. So, he says, המרומז על כתר עליון, ממש כמו בשנה זו יפתחו גם מבועי דחכמתא לתתא, חכמה לתתא that you have the from the wisdom from below, הוא תורה שבעל פה, it's actually the oral Torah.

This is what it says in a hundred places, שהוא רוב חכמה שניתן לשבור כדי לסלק את רוב כעס, לריבוי יצר הרע.

רוב כעס השם has it, He says, I'm going to give you, there's a lot of chaos, I have the antidote, and the antidote is actually right down here on this earth.

Pri Tzaddik Parshas Noach Ois Vav

וזה ריבוי חכמה דתורה שבעל פה מועיל ליישר, לערות ולבער הרע מלב כסיל. There's so much abundant wisdom, it's going to empty out and void the evil from the heart of the foolishness.

מחלל השמאלי של לב שמשם משכן היצר, that's where on the left side where the יצר הרע dwells, גם כן.

וזה שאמרו הצדיקים זוכין לאור, דכתיב "אור זרוע לצדיק", ואור זרוע, היינו אור הראשון שהשם יתברך משפיע לצדיק, מצד שהשם יתברך מאור הראשון שגנגז לצדיקים לעתיד לבוא. So there's a part again where Hashem is filling in the rest of that void to help us to get to the finish line.

וכן שהשם יתברך גנז את האור לישרים, he conceals that light for the the people that are the ישר.

דכתיב "לישרי לב שמחה", that they straighten out their heart, that's a that's a שמחה.

"ואור צדיקים ישמח", the light is saying that they'll rejoice, דהיינו על ידי אור הצדיקים, the light of the צדיקים, שהוא תורה שבעל פה, נפתחו מבועי דחכמתא לתתא, which is open from the wisdom from below. So this hidden light actually is right now, and the צדיקים are bringing it out, מעיינות החכמה שלמטה, that's the wellspring of of the חכמה from below, התורה שבעל פה שמועיל לישרי לב זוכה לשמחה. So he's saying, even though the Zohar says before it was not possible to fix it up in there, I have breaking news to tell you, because there's a חכמה that opens up, what the Zohar says was true, but now we're going to have a new script.

Noach as the Model of Tzaddik and the Precursor to Torah

ועל זה אמר בזהר הקדוש שבשנת שש מאות שנה לאלף הששי יפתחו שערי חכמה למעלה ומעיינות של חכמה למטה, בסמך לדבר בשנת שש מאות לחיי נח, the *siman* is in the 600th year of the Noach, of the of the life of Noach.

וביאור הדבר, what is Noach?

שהנה נח נקרא בתורה איש צדיק. Noach, in fact, was called a *tzaddik*. *Tzaddik*, again, is protects the *brit*.

Why? What was the the great thing about Noach?

מפני שלא קלקל בפגם ברית כפגם שאר בני דורו, דור המבול. He stood out.

ונח זכה גם כן להיות מרכבה לשורש צדיק יסוד עולם, כשחי שש מאות שנה הם מכוונים כנגד מדת יסוד שביסוד. So Noach is planting seeds of what's going to happen in the future right there and then, and that's the begin.

כשחי שש מאות שנה, and again, when you say years and days, really it's referring to *middot*, not how we count time.

אז הזמן הראוי ליתן להם לישראל בו את התורה שבכתב, he's actually It's the time where we could have had the written תורה, לדור הזה על ידי נפש משה רבינו שהיה אז בעולם. Moshe's soul was actually in the דור המבול. If the people would have done their job right, we could have actually had *matan Torah* at that time.

And how do we know that? Because you had the *middah* of יסוד through Noach being being there, and the hint of the wisdom is open for the future. So it was it was right right there.

אך דור המבול לא רצו לקבל את התורה. But they were they did not want to take on the Torah.

In fact, they did the exact opposite. It's amazing what you do when you when you want to when you're given opportunity, you say no, and you go to the exact opposite extreme. They could have had it.

כמו שאמר הכתוב ודעת דרכיך לא חפצנו, that your that that the knowledge of your ways, we didn't want it.

זוהי התורה.

כלומר, דור המבול אמרו, "לא חפצנו לקבל את התורה". We don't want the Torah!

Pri Tzaddik Parshas Noach Ois Vav

ועל כן נרמז בכתוב בגלל נבקעו כל מעיינות תהום רבה, that's what caused a breach of the of the wellsprings of the great deep, שמרמז על מבועי דחכמתא לתתא. So in the waters that caused so much chaos, was really a wellspring of the wisdom that could have fixed up things right there and then.

But Hashem has a plan, that in the sixth millennium it's going to happen, and the wisdom will happen no matter what.

תורה שבכתב, לכן הופיע גילה להם השם יתברך את מבועי שמאחר שכיון שלא רצו לקבל את התורה שבכתב, they did not want the חכמתא לתתא, החכמה תורה שבעל פה, אולי אם יועיל להם לכבוש את יצר הרע, if you want, you can capture subjugate your יצר הרע, אם ירצו בכך, if you want that, אך גם בזה לא הועיל להם. It was not going to be of a benefit to them.

וגם זה נרמז במה שאמרו ודעת דרכיך לא חפצנו, we don't want that, your ways, הרמז על תורה שבעל פה.

ועל כן אמרת ודעת דייקא.

דייקא, saying *daas* specifically, כמו שאמרנו למעלה שדרכיך, when it says your ways, היינו תורה שבכתב, ודעת דרכיך הוא תורה שבעל פה, that's the oral Torah.

וזה הביאור מה שאמרו בזהר הקדוש שבשנת שש מאות לאלף הששי יתפתחון תרעי דחכמתא לעילא ומבועי דחכמתא לתתא", יפתחו שערי חכמה למעלה ומבועי חכמה למטה, אמר לו, "הוסיף השם חסד לעילא", קודם, it was a it was a *chochmah* from from above, לבד משערי החכמה התחתונה, it was already after מתן תורה, אז הזמן לפתוח את שערי החכמה העליונה, אור התורה שבכתב, שעזרו לצדיק, וצדיק מאור הגנוז שנגנז לצדיקים לעתיד לבוא, that's going to be stored for the *tzadikim* in the future.

וכן הוא זמן הגילוי של תורה שבעל פה, שהיא אור, צדיקים ישמחו באור. That is the revealing of the Torah of the where the *tzadikim* are going to rejoice, as we said.

Preparation for the Ultimate Shabbos

מסיים הזהר הקדוש, "ואז יסתכן עלמא לעילא בשביעאה כגוונא דאינש דמתסכן ביומא שביעאה מיהי מיהי ערב שמשא למיעל בשבתא".

ובזמן זה היה יסתכן העולם, ויהיה מוכן להיכנס לשביעי. It's going to be that that time when the world is going to be rectified, and then they're going to be ev- and then when able to prepare themselves to get in to go into the seventh, meaning the ultimate Shabbos. How we prepare on *Erev Shabbos*, we're going to be in the mode of the ultimate *Erev Shabbos* to get into the יום שכולו שבת, כמו כמו בן אדם שמתקן ביום הששי שמערב השמש להיכנס לשבת, like you know what we do on a regular Friday.

מכוון כנגד שש מדות מדת חסד עד מדת יסוד is the number of 600 שנה of the years, וביאור ענין, היינו מספר שש מאות מאות שבהם נתחלקו ששת ימי בראשית, it's extrapolation of the six days of creation, שכל אחד מעשר ספירות כלול מעשר פעמים עשר, again the all the different permutations, כמו שאמרנו, as we we said above, וכן האלף הששי מכוון כנגד מדת יסוד, כולו כולו מעשר מדות, ושש מדות ושנים הראשונות באלף הששי, ובזה כנגד שש מדות שייך לאדם להתגבר מצדו.

By the way, Reb Mendelson and I, when we learned together, like there's a there's a there's a Tzidkas Hatzadik goes through about three different sections of talking about שכבת זרע לבטלה over and over again, and you're like, "Oh, what are we going to do? We're going to learn this this week?" Every Shabbos, we did it for a while. And I remember Reb Mendelson told me basically he says, and at that time, the reason why I I think they wrote so much about שכבת זרע לבטלה, not just the the *Chassidishe sefarim*, but even even even like like like Kitvei HaAri and other ones, also Reishit Chochmah was another one, is that the people were really struggling with that *middah*, like you know, שכבת זרע לבטלה big time. And therefore, like there's that antidote at at that same time because there's a wisdom that's screaming that that wants to be to be rectified. So therefore, that's why it had to be addressed at at at that same time because the time was ripe.

Pri Tzaddik Parshas Noach Ois Vav

What what is this special wisdom? He never tells it. Does he? What what's he referring to? He's referring to the the the the Zohar and the חסידישע ספרים. Oh, that.

חסידישע ספרים have a The Zohar was way before that, but the חסידישע ספרים have a way of bringing it down not just in technical terms, but in a way that that reaches the *lev*.

And that's the the the the wellsprings of Torah which is which is referring to. *Chassidim* are very biased about that, so you have to understand that, you know. And Reb Tzadok, obviously, who is a *chassid*, is very biased about that. All right, let's let's finish this up.

But it says, וכן אלף הששי מכוון כנגד מדת יסוד, כולו מע- I said that already, sorry. So he says, בזה כנגד שש מדות שייך לאדם לספרו מצדו He has to be clarified from his vantage point.

שהלא מסתמא נתקן בזה מדת היסוד שבאכילה ותאוות עולם הזה. *Yesod* really is not just פגם הברית, it's actually referring to אכילה and תאוות, you know, sexual pleasures and eating, they are really joint at the hip.

They're *heinu hach*.

ואחר כך ארבע מאות And then you have the 400 years, שנה, לתיקון השאר של מדת יסוד to fix up the מדת יסוד, שבהם יהיה השי״ת משפיע שלש מדות הראשונות. Then He's going to kick in those three *middot*, you don't have to worry about that. Hashem got that.

מדת חכמה חכמה, בינה, ודעת, שהם תרעי דחכמתא עילאה ומבועי דחכמתא לתתא, שערי חכמה למעלה ומבועי דחכמה למטה. There's a there's a gate of wisdom from from above, and there's also the wellsprings of of of of wisdom from below.

ואחר כך בסוף אלף הששי תהיה עוד מאה שנה, and then there's going to be another 100 years, שמאה זו מכוונת כנגד מדת מלכות שמדת יסוד. By the way, it's amazing.

Everything is very slow as far as the thousand years, and then all of a sudden when you get to the last very end, you have the last three *middot*, it's it speeds up. Because if you really think about the math, right, you have the the the six the six or seven *middot* that's that's, you know, takes over, you know, six or 6,000, seven thousand years, but the three other *middot* have nothing to do with time, Hashem just crams it in at the very end. If you if you think about it, it like it supersedes time.

ואחר כך בסוף אלף הששי תהיה עוד מאה שנה אחרונה, it's going to be another 100 years, right, of the last, שמאה זו מכוונת כנגד מדת מלכות שמדת יסוד, והם ימות המשיח שהם זמן המכוון כנגד זמן תוספת שבת.

That's when you're already having We We are in the תוספת שבת point right now, by the way. We are? Yes. Absolutely.

What does that mean, תוספת שהם? Oh, you mean from the beginning, the the extra? We could מקבל שבת early.

So we're we're in the early part of ימות המשיח, you're saying. Right. Absolutely. All right.

We've been there for about 1,000, 2,000 years. Thank you, skeptical guy. Anyways, One second. When When You're the same person that says, "Okay, when when Mashiach we're going to have come down right now." So make up your mind.

Is he there now or not? When is that going to happen? Throughout our lifetime. Okay, continue. I hear. I hear.

שהוא כנגד אלף השביעי שנקרא אז יום ש- יום שכולו שבת. That's the, again, the thousand of the 7,000 years, יום שכולו שבת. That's Now we're finished. Okay, now I got a question.

Yes. On the the No, back on that one. All the wisdom. All the wisdom.
